Greenhouse Gas Policy Statement

The company is committed to controlling energy use within the plant and conducting greenhouse gas emissions investigation. Based on the investigation results, the company actively promote various measures for greenhouse gas emission reduction. Through continuous improvement plans and activities, the company aims to lower the environmental and climate impact caused by greenhouse gas emissions on global warming.

In order to pursue the goal of sustainable operation of the company, the company will fulfill its corporate responsibility to the society by implementing this policy, educating colleagues to understand, taking effective support actions, and will be committed to the following matters:

1. Introduce ISO 14064-1:2018 system.
2. Continue to promote and support energy conservation and carbon reduction and fulfill corporate responsibilities.
3. All employees participate in environmental protection issues and start carbon reduction in daily life.
4. Save energy at all times to reduce greenhouse gas production.
5. Comply with government environmental laws and regulations, customer requirements and other relevant regulations.
6. To ensure the effectiveness of the ISO 14064-1:2018 operating system, I appoint Chen, Hung-Ju, the Manager of Administration Department, as the management representative to be responsible for the overall planning and promotion of the management system.

President:
